LAUNCHING 2026 · G2E ASIA, MACAU

The derby your floor has *been waiting for.*

Your floor. *Our thirty years.*

02 / WHY RGD3

Configurable.

Race pace, field size, bet windows, distance, track, weather — all adjustable live from admin console. Every trackside banner and between-race screen is a sellable ad slot.

Scalable.

Eight layouts from 6 to 50 terminals. One server to 100. Two cabinet finishes, bespoke on request. SAS, TITO, AFT, ACE compatible.

Field-tested.

GLI-certified since 2006 — the world's first. Third generation system deployed across 10 markets, from Solaire Resort and City of Dreams to 18,000 units in Korea.

FLOOR LAYOUTS

Every detail, *dialed in.*

THE RACE Variety & realism built into every event

01

Up to *14 horses.*

8-14 runners per race. The largest field in the category.

02

Six race *distances.*

Six distances from 1,000 m to 2,000 m. Each shifts race pace and tactics.

03

7 venues, *6 weathers.*

Seven signature racetracks across six weather states. Every race lands in a distinct atmosphere.

THE EXPERIENCE What players see, hear, and do

04

5 wager *types.*

Win, Place, Quinella Place, Quinella, Exacta — every classic track bet.

05

300" cinematic *broadcast.*

Ultra-wide panoramic screen up to 300", with real-time camera tracking — overhead and rail angles — and 3D spatial sound trackside.

06

Seven *languages.*

Full UI and live commentary in English, Korean, Cantonese, Mandarin, Japanese, Spanish, Portuguese.

THE PLATFORM What operators deploy and control

07

8 layouts, *100 terminals.*

Eight cabinet layouts from 6 to 50 seats; one server scales to 100 terminals.

08

Administrator *system.*

Tune game time, betting window, runners, distance, track, and weather from admin console. Betting data and game statistics in the same view.

09

In-game *ad inventory.*

Every banner, billboard, and between-race video slot is a sellable placement, managed on-site.

Eight modular *layouts*.

RESULTS

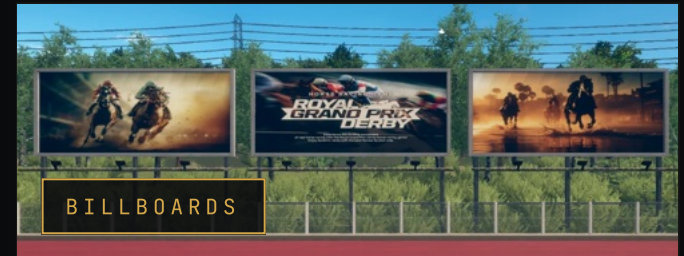

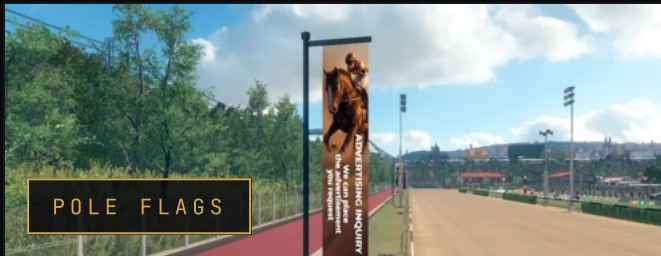

A new revenue *stream, built in.*

Every banner and billboard in RGD3 is a sellable ad slot — visible in every race, across every venue. Between races, the full display becomes a client-controlled broadcast channel for property promotions or sponsor campaigns.

ON-SITE CONFIGURED

All ad content is managed on-site — update campaigns instantly from admin console. No internet connection required.

GLI *certified.*

CERTIFIED BY GLI

Tested. Cleared.
Ready to deploy.

RGD3 completed full GLI evaluation in December 2025 – hardware and software, both approved for international markets. F2 System has held continuous GLI certification since 2006, when it became the first virtual horse racing game in the world to receive GLI approval.
